

BEA

MULTI-SIZE* ADJUSTABLE TRAYS

Here's a unique concept to provide you with complete versatility and flexibility in your standard or odd-sized card tray requirements — *at no extra cost!*

New BEA Multi-Size Trays will accommodate *all* cards or sheets from a tiny 6" wide x 4" high to a huge 17" wide x 15" high. This adjustability in BEA Trays completely eliminates the awkwardness usually associated with odd-sized material. And should you change the size and/or nature of the material to be filed, your BEA Trays are *not* obsoleted. A simple adjustment is all it takes to accommodate the new size and/or shape. These unique trays are designed to be used with BEA Tub File units, other makes of tub files, and BEA or other makes of Portable Stands.

BEA Tub File

BEA Portable Stand

Type "A" for contents over 7" high

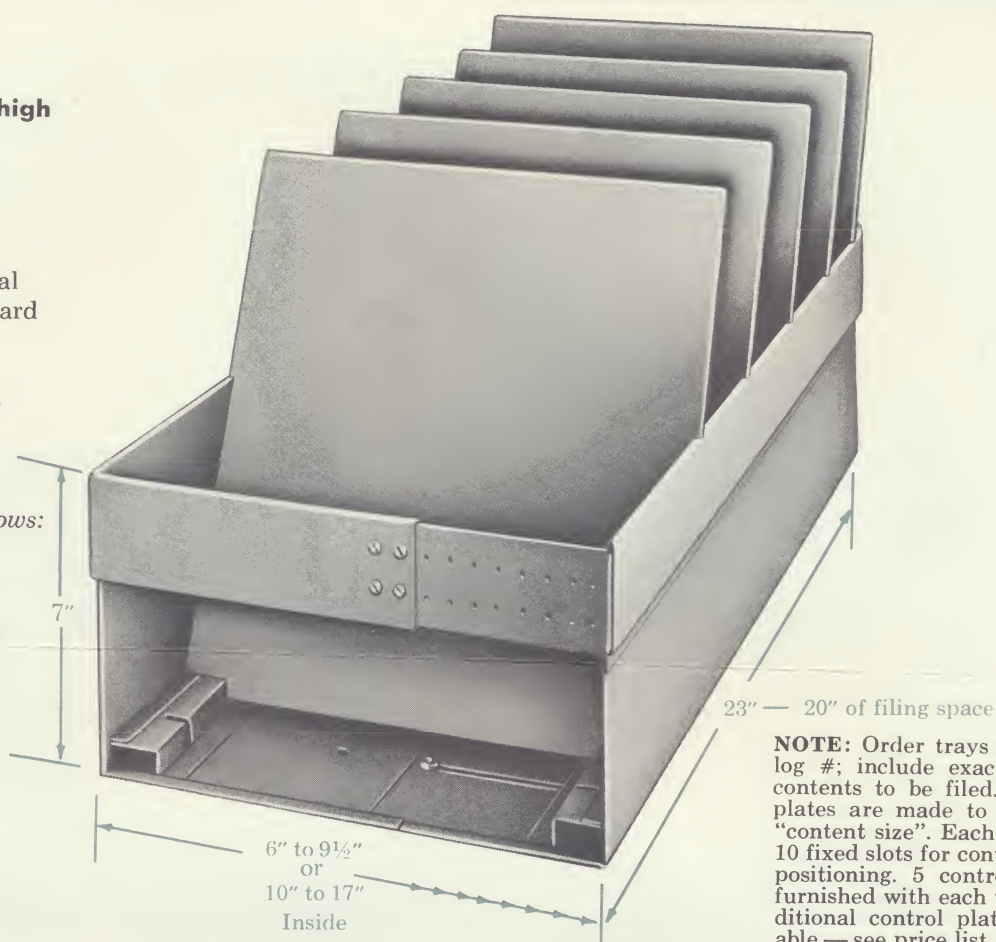

All basic office requirements for filing larger size cards and forms can be satisfied with this BEA Multi-Size Tray. Stainless steel strip projects tray edge. Horizontal adjustability permits use of standard sizes as well as all intermediate sizes to 17" wide.

Change of size no longer destroys the usefulness of the file tray.

Tray sides 7" high x 23" long horizontally adjustable from 6" to 17", in $\frac{1}{2}$ " increments, as follows:

Cat. No. "A-N" adjusts from 6" to 9 $\frac{1}{2}$ " wide.

Cat. No. "A-W" adjusts from 10" to 17" wide.

NOTE: Order trays by Catalog #; include exact size of contents to be filed. Control plates are made to order to "content size". Each tray has 10 fixed slots for control plate positioning. 5 control plates furnished with each tray. Additional control plates available — see price list.

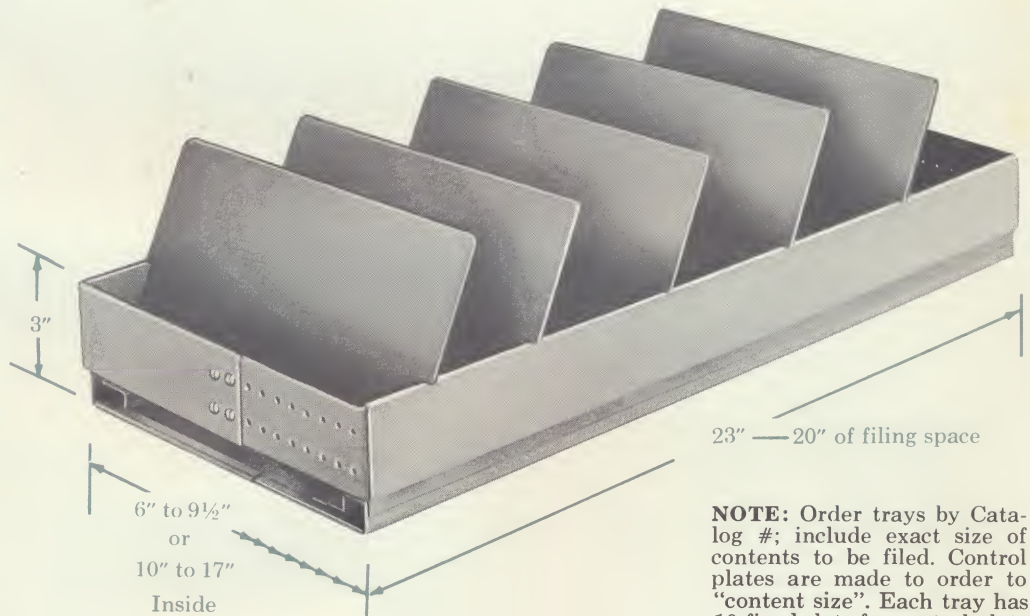

BEA MULTI-SIZE* ADJUSTABLE TRAYS

Type "B" for contents over 3" high

Precision engineered and manufactured like all BEA products, BEA Multi-Size File Trays provide long-lasting durability, clean modern design. Only four sizes handle practically all card and record filing requirements for the modern office. Tray illustrated handles both standard and specially designed material or card sizes up to 17" wide. Tray sides 3" high x 23" long; horizontally adjustable from 6" to 17", in $\frac{1}{2}$ " increments, as follows:

Cat. No. "B-N" adjusts from 6" to 9 $\frac{1}{2}$ " wide.

Cat. No. "B-W" adjusts from 10" to 17" wide.

NOTE: Order trays by Catalog #; include exact size of contents to be filed. Control plates are made to order to "content size". Each tray has 10 fixed slots for control plate positioning. 5 control plates furnished with each tray. Additional control plates available — see price list.
